What's New in Version in 2.1.2

The 2.1.2 release of the NeedToMeet Outlook Add-in resolves an issue discovered since the release of the 2.1.1 version and adds new features.

Release Notes 2.1.2

- The NeedToMeet feature icons for the Sync, Mark as Read, and Mark as Unread functions have been updated to better conform to the newer Outlook-style icons that appear elsewhere in the product. (14284)
- Free/busy queries now succeed for GAL (address book) objects outside the querying user's Exchange environment. (14710)
- A read only text box of the personal URL that allows the user to copy the URL and a view button to view the personal URL have been added to the Settings screen. (15004)
- A note to direct users to access their account online to further configure the personal URL feature has been added to the Settings screen. (15152)
